

ELIA BETBADAL

Founder & Chief Executive Officer | ERCES / Public-Safety DAS Leader

Campbell, California • [email] • [phone] • [LinkedIn URL]

PROFESSIONAL SUMMARY

Public-safety communications executive with more than two decades building and leading in-building wireless and Emergency Responder Communications Enhancement Systems (ERCES/ERRCS) programs. Founder and CEO of DAS Systems, a design-build integrator serving healthcare, hospitality, multifamily, education, and public-sector clients across nine states. Level 3 iBwave-certified RF designer with deep code and AHJ fluency and a demonstrated commitment to advancing life-safety standards through industry advocacy — with particular passion for the intersection of ERCES, school safety, and workforce development.

CORE EXPERTISE

- Emergency Responder Communications Enhancement Systems (ERCES / ERRCS / BDA)
- Distributed Antenna Systems (DAS) — public-safety and carrier
- RF design, modeling, and survey (iBwave Certified — Level 3)
- Life-safety code compliance and AHJ coordination (NFPA 72 / IFC and local fire codes)
- Multi-state design-build project delivery and operations
- Executive leadership, P&L ownership, and multi-entity governance

PROFESSIONAL EXPERIENCE

Founder & Chief Executive Officer

2001 – Present

DAS Systems (ERRC Systems, Inc. dba DAS Systems / Dishnet Direct) — Campbell, CA

- Founded the company in 2001 as Dishnet Direct; expanded into ERCES / public-safety systems in 2011 and carrier DAS in 2013, rebranding as DAS Systems in 2015.
- Built and lead a nine-state operation delivering ERCES and DAS design, installation, commissioning, and compliance services across healthcare, hospitality, multifamily, and education verticals.
- Serve as sole licensed principal, holding full legal, financial, and technical accountability for the organization.
- Delivered public-safety and in-building wireless solutions for leading healthcare clients, including a Montage Health deployment featured by NBC affiliate KSBW.
- Actively pursue education-sector life-safety work, including K-12 DAS/ERRCS projects and cooperative-purchasing bids.

Co-Founder & Chief Executive Officer

Present

Fieldly AI — Proptech / Building-Operations Platform

- Co-founded an AI platform for building operations — maintenance, work orders, preventive maintenance, and compliance — serving the multifamily, hospitality, and healthcare sectors.
- Extends a two-decade record in the built environment into technology that improves how facilities are operated and kept safe.

INDUSTRY LEADERSHIP & ADVOCACY

- Active contributor to public-safety communications policy discussion, including engagement with the Safer Buildings Coalition on legislation affecting life-safety and ERCES standards.
- Advocate for preserving and strengthening emergency-responder communications requirements in building codes.
- [Optional: add committee service, conference talks, panels, or published commentary]

CERTIFICATIONS

- iBwave Certified — Level 3 (RF Design)
- [Add any additional credentials — e.g., NICET, OSHA-10/30, manufacturer / BDA certifications]

EDUCATION

- [Degree, Institution, Year — to be completed]
