Education

High School 1965

4 Semesters College

Trade School

Work Experience

1963-1965

Part Time at McLoed Electric

1967-1968

Porter Burgess Company – Local Distributor of Motorola Consumer Products. Television, Stereo, Automotive radio and tape players.

Bench technician servicing all Motorola consumer products that were not television.
Left to take position with Teletronics

1968-1971

Teletronics Leasing Company Color Television Leasing Company

Service manager Responsible to oversee repairs and scheduling of customer deliveries.
Left to operate retail store.

1971-1974

TV City Retail Store

Owner – Responsible for all operations of a consumer retail store. Had to close due to numerous burglaries causing loss of insurance.

1974-1977

Sound Electronics Commercial/Professional Sound Installation.

Service Supervisor – Oversee all functions of customer service. Ordering parts. Performing service calls, Bench repairs. Clients included Texas Stadium (the Cowboys), Dallas Convention Center and multiple school districts.

Left due to Union Strike

1977-2014

Partner in Master Sound. System integrator selling and installing Sound/Intercom/Antenna/Nurse Call systems and eventually adding Fire Alarm.

2014 Merged with Texas Fire and Sound, Taking a position of sales (TFS).

At TFS specialized in Sound and Intercom sales mostly to school districts. During time with TFS, we moved to the top seller of Bogen School intercom in Texas and we have remained there for several years in a row.

In 2018 TFS management asked if I felt we could move into Emergency Responder Radio Systems since I already had an FCC General Class Radio License. I led the team in sales for the next several years helped to grow that area for TFS.

2025 Texas Fire and Sound was acquired by Summit Fire and Security where I remain today. My current responsibilities continue in selling to K-12 and other clients with Audio-Video, Sound Systems, Intercom Systems, and, of course, BDA.

With my long background in RF, I am continually assisting with site surveys and system installs. I work with local radio shops and AHJ's to assure systems are installed properly and do not create issues.

Hobbies

Amateur Radio General Class License

GROL License first Acquired 1967. The re licensed in 1978

In my community

I serve with the Amateur Radio Group R.A.C.E.S. "Radio Amateur Civil Emergency Services" under the management of the Garland office of Emergency Management.

I serve on the Garland, Texas Planning and Zoning Commission where I am currently the 2nd Vice Chair.
